

Look like you mean it.

Beautiful, affordable websites for UK businesses — built by a real designer, not a template wizard.

Why PixelClub

Already built

No DIY website builders, no drag-and-drop guesswork — your site is handmade and ready to go.

Effortless to start

Just a logo and a few paragraphs of text is genuinely all we need from you.

Incredibly affordable

One modest, consistent monthly payment — no hidden extras, no surprise invoices.

Fast

Most sites launch same day or next day once your content is in.

A huge photo library included

No professional photos? No problem — The Photo Box gives you a full library of ready-to-use imagery, free.

You're looked after by a person

Every PixelClub site is coded, hosted and supported by the same person who built it — not a ticket queue or a chatbot.

Simple, Honest Pricing

One straightforward subscription covers hosting, email, your domain and SEO setup. Add bolt-ons any time as your business grows.

Package	Monthly
Up & Running – 5 pages, hosting, email, domain & SEO setup included	£36
Extra Page	+£4
Ultra Mailbox – 50GB mailbox upgrade	+£6
News Section – articles, images, great for SEO	+£10
Jobs Board – applications & CV upload built in	+£10
10 Extra Pages	+£25

A flat, one-off purchase option is also available if you'd rather pay once for the whole build — hosting is then billed separately, with us or another provider of your choice.

What's included on every site

Renewable-energy hosting • custom email addresses on your own .co.uk domain • free access to The Photo Box image library • organic SEO setup • free feature upgrades for life • a wildcard SSL certificate • and a real developer you can actually call.
